Open to view CViConnect Activities available to your learner.

Journal

Save notes relevant to your learner's progress.

Messages

Communicate with all of the members of your learner's education team.

Education

Learn more by checking out resources the educational team has made available to you.

1. Select an Activity

Touch the play icon in the center of the Activity you'd like to open. Carefully read the instructions provided.

2. Preview Look Detection

Touch the 'more options' icon, select 'Preview Eye Detection'. Align the iPad's forward facing camera with your student's face.

3. Begin Activity

Press the play icon to begin the Activity.

4. Activate Look Detection

Touch the look detection icon* in the upper right-hand corner to begin collecting look detection data.

*Due to Apple's camera policies, this has to be done for each Activity Session in which you want to collect look detection data.

5. Complete the Activity

Press the pause icon in the upper right-hand corner. Select 'Complete' from the prompt. Lastly, in the text box provided, enter your environmental notes or other observations relevant to your student's progress.
